

LOGBOOK

UAS PILOT

Surname: _____ **Firstname:** _____

Guideline

The following UAS Pilot Logbook is an indispensable document to exercise the profession of UAS Pilot.

The following document, properly compiled, represents an essential part of the professional activity with unmanned aircraft systems, as it is a document that has legal validity in the declaration phase.

PILOT: insert surname and firstname of the UAS Pilot

FLIGHT DATE: enter the date in the format you deem most appropriate, we recommend YEAR / MONTH / DAY

PLACE: GPS coordinates of the place where aerial activity is carried out with the Unmanned Aircraft System or a name / abbreviation, if the place is well defined (in this case, specify the reference in the Notes section, for example GFF for Generic Flight Field - GPS Coordinates **,***** N, **,***** E)

ACTIVITY START TIME: the time defined as HH.MM

ACTIVITY END TIME: the time defined as HH.MM

UAS OPERATOR REFERENCE CODE: as indicated by National Civil Aviation Authority or delegated company

UAS REF. CODE: as indicated by National Civil Aviation Authority or delegated company

PURPOSE: purpose of the flight, for example instructional, training, examination, specialized operations, the use of abbreviations is recommended (example T – Training)

INSTRUCTOR / EXAMINER SIGNATURE: in case of an instructional flight or training, signature of the Instructor, in case of an Exam, signature of the Examiner. Report in the notes sections Surname and Firstname of Instructor / Examiner with their reference code if applicable.

FLIGHT MINUTES: this number derives from the difference between ACTIVITY END TIME and ACTIVITY START TIME; for example ACTIVITY START TIME: 10.00 / ACTIVITY END TIME: 10.08 / FLIGHT MINUTES: 8 (10:08 – 10:00).

TOTAL FLIGHT MINUTES: the sum between the TOTAL FLIGHT MINUTES box of the previous line and the FLIGHT MINUTES box of the same line, expressed in minutes.

TOTAL PREVIOUS PAGE: enter the value, expressed in minutes, indicated in the total section of the previous page

TOTAL OF THE PAGE: indicate the last value reported in the TOTAL FLIGHT MINUTES column of the page

TOTAL: indicate the sum between TOTAL PREVIOUS PAGE and TOTAL PAGE
